TWENTY YEARS OF PRESSURE

Formed in Tucson in 2005 by drummer George Samaniego and guitarist Steve Urquides, Headrust has spent two decades refining a sound built on crushing riffs, locked-in rhythms, dynamic melody, and raw emotional force. Dennis Brack joined in 2006; Matt Mier joined in 2026 to drive the band's current chapter.

SELECT LIVE SUPPORT

- 01 FEAR FACTORY
- 02 POWERMAN 5000
- 03 KITTIE
- 04 THE BLACK DAHLIA MURDER

THE MARK

A high-resolution transparent logo for flyers, posters, venue screens, and social promotion.

The image shows the word 'HEADRUST' in a large, white, gothic-style font with a distressed, hand-painted texture. The letter 'R' is replaced by a small, white skull icon. The entire logo is set against a dark gray background and is enclosed within a thin red rectangular border.

- Chromatic tuner and Shure wireless system
- Balanced XLR direct feed available from the B7K

GEORGE SAMANIEGO

DRUMS

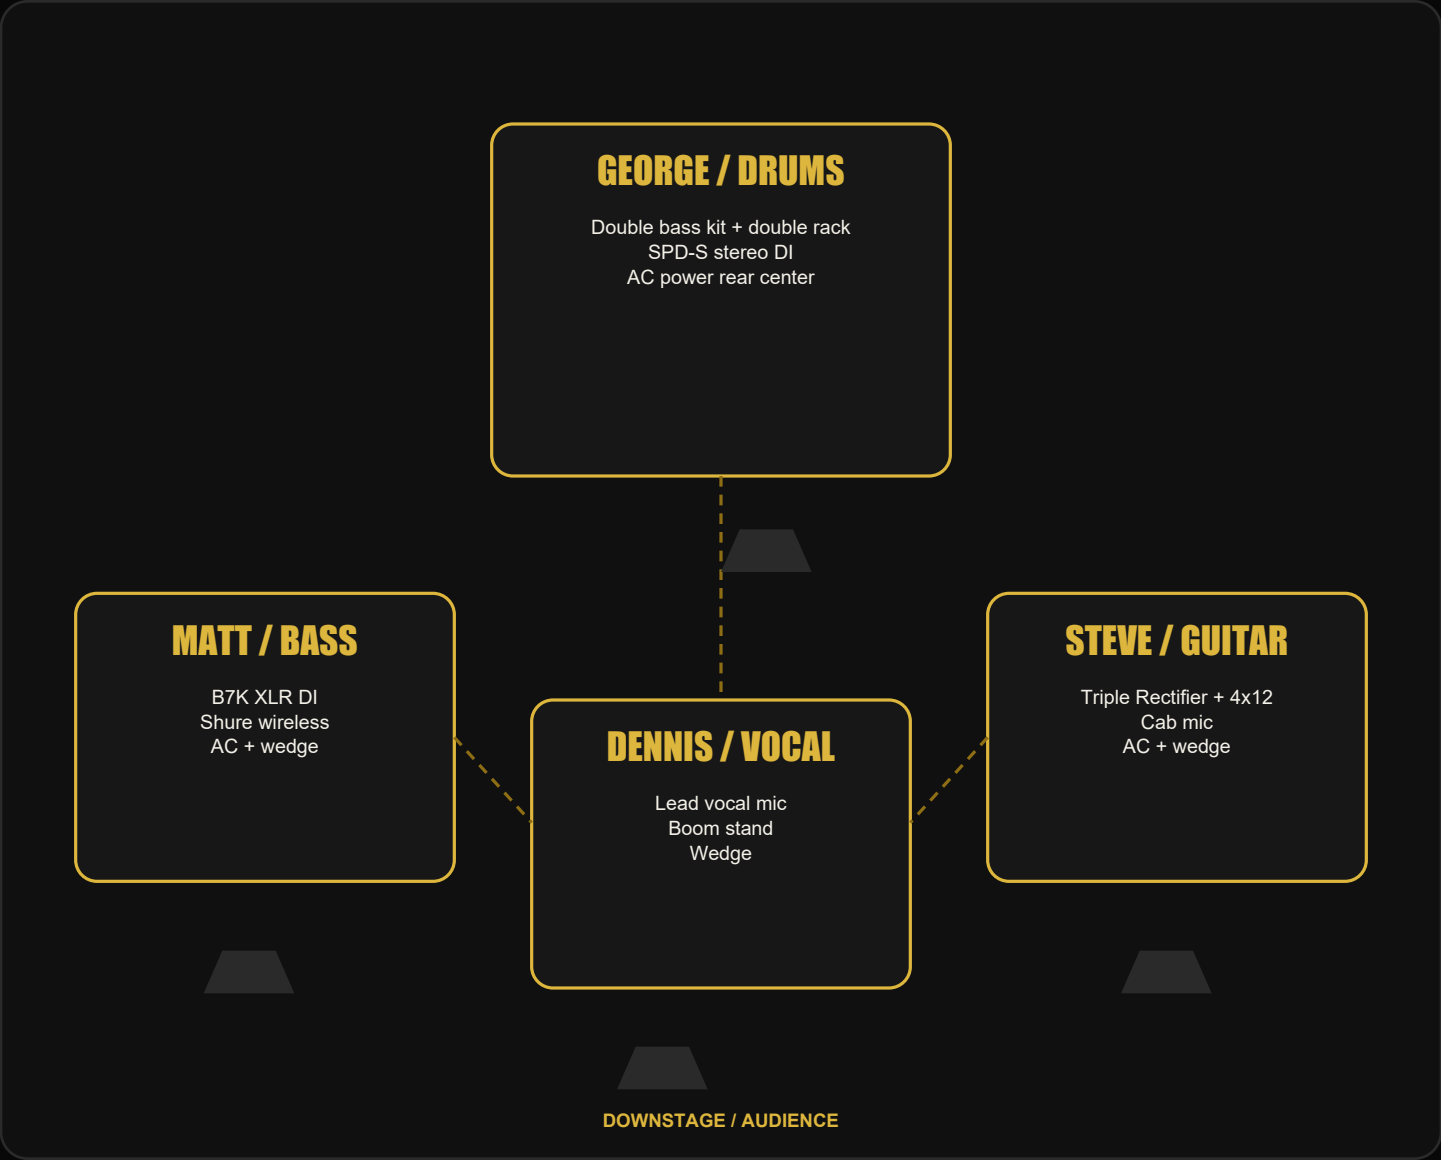

- 10 x 7, 12 x 8, and 13 x 9 maple mounted toms
- 14 x 14 and 16 x 16 maple floor toms
- 14 x 6.5 DW snare drum
- Two 22 x 20 bass drums
- Gibraltar double rack in two sections
- Cymbals on rack plus three stands on drummer's right
- Roland SPD-S sampling pad with Roland RT-10K kick drum triggers

ADVANCE NOTE

The drum rig has a substantial rear-center footprint because of the double-bass configuration and two-section rack. Please confirm stage depth, load-in route, drum riser availability, and shared-backline limitations before show day.

SUGGESTED STAGE PLOT

AUDIENCE VIEW / FINAL PLACEMENT BY ADVANCE

PREFERRED HOUSE SUPPORT

Monitoring: Four independent wedge mixes preferred. Power: Safe 120V drops at guitar, bass, and drums. PA: Venue-appropriate FOH system, console, snake, stands, and cabling. Advance: Confirm any shared backline, channel limits, and changeover constraints.

PREFERRED INPUT LIST

17 INPUTS / SCALABLE BY ADVANCE

CH	SOURCE	CONNECTION / MIC	NOTES
1	Lead vocal	Shure SM58	House boom stand
2	Guitar cabinet	House cab mic	Mesa 4x12

14	14-inch floor tom	House tom mic	Floor
15	16-inch floor tom	House tom mic	Floor
16	Overhead left	House condenser	
17	Overhead right	House condenser	

ADVANCE AND BOOKING

If the venue is channel-limited, Headrust can agree on a reduced drum package in advance. Do not assume trigger outputs replace the acoustic kick microphones. Confirm DI availability, monitor mixes, stage footprint, load-in, set length, and changeover timing with the band before show day.
